Volume 53, Number 50. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA Thursday, September 9, 1948

Hi Neighbor!

You can't afford to miss seeing the "Cheery Farmer" in action at the annual puppet show at the Santa Clara County Fair, Sept. 13-19. "Cheery Farmer" and other amazing little puppets will perform each day and evening during the entire week of the big Fair.

Our Town

By Peggy Blanchard

Like the fellow on the radio who has "A" listener in Pittsburgh, this column has a reader in the person of Dad Lee.

Sorry, Dad, that time didn't permit us to mention your wedding anniversary—the 53rd—last week. Many happy returns to you and Mrs. Lee.

★

T. H. Martin lost his ledger book last Wednesday night, found it Thursday morning when a woman returned it to him via the drug store near his shop. He keeps specifications, contracts and a precious assortment of records in his ledger book, so you can imagine how happy he was that it fell into good honest hands.

Mr. Martin is going to take his second real vacation in some 25 years next week—going down to New York to see son Don, Mrs. Don and a brand new grandson.

★

When anyone we know finds a house, the Press sends up a couple of huzzahs and three cheers. As it is, Mr. Fairchild popped in early last Friday to beg us not to run his room-for-rent advertisement any more. One insertion and he was swamped with applicants.

★

Four polio cases reported here last week serve as a grave reminder to parents of small children to watch them closely and check those "summer colds" with their doctors during the early stages.

★

Prune trucks — stacked high with fresh-picked fruit — keep wheeling down Campbell avenue and around the corner into the dryer. Often there's a small boy, perched proudly front beside his father in the driver's seat to see part of the Valley's blue gold delivered to the drying tunnels, and to share the family pride in this year's yield.

★

Did you observe that Santa Clara County walked off with first place in produce exhibits at the State fair? Congratulations to the individual winners.

★

Mrs. Prout, there are some more Christmas cards here in the office for you and your friend who makes scrapbooks for veterans' hospitals.

★

Our wish-we-knew-more-about it department: The pale blue coupe with Bugs Bunny or Peter Rabbit stenciled on the door. Wonder if it belongs to a nursery school or a comic book fan?

★

All dressed up to have their pictures taken, several youngsters kept calling at our office Friday afternoon to ask where the "community hall" is.

We hated to tell them there isn't any such hall in Campbell that we know of, but that's what we had to do.

Their mothers had bought special coupons—from some traveling saleswoman — for Christmas gift photos, but the salesgirls disappeared and so did the deposits. Lady, Lady! When you want junior's picture taken, call one of our local photographers, or go down

(Continued on Page 8)

Public Supports Local Banks with Record Deposits

By BILL GOULD

In less than six months, the Campbell branch of the American Trust Company has listed more than 1800 depositors on its books, according to information from Manager Joaquin J. Payne this week. This is a greater number than the institution's forerunners in Campbell could show at any time during their existence.

Campbell's present bank opened on April 12 of this year. Its phenomenal growth since that date is regarded by business men as a measure of the rapid development of Campbell as a community and business center. The town had been without a bank since the previous American Trust Company branch was closed in 1936, during the "recession."

According to Payne, the deposits of the Campbell branch at the present time are more than 220 per cent greater than the total shown by the original branch, 12 years ago, even though the new establishment has less than half its first year behind it. Reports on actual deposit totals are made by the American Trust Company as an entity and are not available for publication by individual branches.

The Campbell branch now has a staff of nine employees, as compared to the five employed by its predecessor. Included among them is Arthur R. Mayo, who was a member of the local staff in 1936. He now is assistant manager and has recently built a new home at Carlyn and Latimer avenues.

Kiwanis Hears AFL Secretary

Labor laws are the big question mark in America's future, Earl Moorehead, secretary of the Butchers' Union, AFL, told Campbell Kiwanis Club Tuesday.

Events of the past 20 years have forced the American Federation of Labor to change its original policy of staying out of politics and led union members to take an increasing part in the national political scene, he said.

The speaker, who was introduced by Lowell Benson, vice president, told of the meat-cutters apprentice school in San Jose.

Kiwanis Lt. Governor Earl Calander of Watsonville and visitors from San Jose and Los Gatos were guests at the Tuesday luncheon.

Russ Lambert will present "News and Views of the World" for the Sept. 13 meeting.

CHRISTMAS SEALS

Arrival of seven million Christmas Seals at headquarters of the Santa Clara County Tuberculosis Association is stimulating early planning for the 1948 Christmas Seal Sale which opens this year Monday, Nov. 22, according to association's president, Dr. C. Gerald Scarborough.

"It's your baby now," says Fred A. Wickett of Palo Alto (right), chairman of the Santa Clara County Board of Freeholders, as he hands the new County Charter to Assemblyman Robert C. Kirkwood of Saratoga, who, as chairman of the Citizens Charter Movement, will head the campaign for its acceptance at the November 2 election.

Ernest Smith Home On 10-Day Leave

Ernest Smith, apprentice seaman, U.S.N., is home on a 10-day leave from the U.S.S. Diachenko, now docked at San Diego.

Seaman Smith took part on Navy manuevers in Alaskan waters and expects to ship out for China when he returns to duty Sept. 16.

His parents are Mr. and Mrs. Harry A. Smith, 21 Sunnyside avenue.

In Alaska, he was most impressed by the States-side appearance of the people and their homes, since the towns look very much like other American communities. And although the Navy was done up in its "heavies"—including fur coats—Alaskans were enjoying their summertime, summer clothes and all.

Smith enlisted in August, 1947, for a three-year term.

New Theatre In Prospect

Plans for construction of a new theatre in Campbell were one step nearer reality Saturday when architects, contractors and Bruno Vicherlli, district manager of Sunny-Mount Theatres, Inc., met to discuss details of the building program.

Eight new theatres are being built by the corporation this year in bay area towns, including Campbell and Mt. View. Ground will be broken in the near future in both of the latter communities. Construction of the new Los Altos movie-house was started two weeks ago, Mr. Vicherelli said.

Fought Fire 6 Days; Offers More Aid!

Still on the fire-fighting line in the Bonny-Doon district where fire destroyed thousand of acres of forest last week, Howard Payne has offered his services and his jeep to any family whose home is endangered.

Payne has spent six days fighting the fire, snatching sleep during the daytime in his jeep the last few days and on active duty day and night during the early hours of the blaze.

His brother, Perley Payne Jr. spent two days in the same vicinity as one of the 1400 fire fighters.

Services Held for Mrs. Sue L. Boyce

Funeral rites for Mrs. Sue L. Boyce of N. Harrison avenue, were held Tuesday in Chapel of the Roses, San Jose.

For the past decade, Mrs. Boyce had lived in Campbell, where she was a prominent member of the community.

She was a native of the Edenvale area and had lived all her life in this area. She was the widow of Charles R. Boyce and the mother of the late Dick Boyce Jr.

The Swickard family, of which she was a daughter, was among pioneer Santa Clara Valley settlers and at one time owners of what is now Oak Hill Memorial Park.

Mrs. Boyce is survived by a sister, Lottie Stuart.

Funeral services were held at 2 p.m. Tuesday from Chapel of the Roses at Oak Hill Memorial Park, the Rev. James H. Strayer officiating. Interment was in Oak Hill.

Campbell Union High School will register students who are new in the district, from 9 a.m. to 4 p.m. beginning Monday, Sept. 13.

Campbell High School Footballers Set For Monday Morning Practice Session

Next Monday, September 13, marks the initial practise day for prospective members of the Buccaneers football squad. For the first week the boys will practice in the mornings from nine to 12, and then when school starts will switch to afternoon sessions. Classes are scheduled to commence on September 20.

The team faces a tough nine-game schedule with eight league games and one practice game with Lincoln High School on October 1. The season ends with the traditional game with Los Gatos on Thanksgiving Day.

A large turn-out of promising players is expected by Head Coach Art Swenson and Assistant Coach Bill Perry. Twelve lettermen will form the nucleus of the staff and several transfers have registered.

Returning lettermen are:

Don Ambler, halfback; John Aspesi, tackle; Fred Aspesi, guard; Richard Abinante, halfback; Bruce Abernathy, guard; Dan Hill, fullback; Jess Holt, end; Gene Holt, guard; Sarold Taylor, center; Dudley Herschback, end; Archie Duarte, guard; Bob Pracna, halfback, and the following lettermen from the 130s: Bill Hunt, Bill Shepherd, Oliver Price, Richard Geraci, Victor Nelson, Joe Mason, Virgil Miller, Russ Bailey.

Pete Young, a transfer from Benecia, is a 6-foot 5-inch 200-pounder and is expected to add strength to a tackle position.

Freeholders File Completed County Charter For November Election Decision

The Santa Clara County Charter—calling for an appointed Sheriff and elected Assessor—was filed by the Board of Freeholders Tuesday at the Court House for acceptance at the polls November 2.

The 7700-word home-rule county constitution submitted by Freeholder Chairman Fred A. Wickett of Palo Alto to the County Clerk, County Recorder and the Board of Supervisors, provides and integretated administrative system, headed by a County Executive, answerable to the Supervisors.

Except for an elected Assessor, District Attorney, and county school superintendent, department heads previously elected would be appointed by the Executive.

Expected to create greatest campaign discussion was the provision for an appointive Sheriff. Freeholders noted that the county for the first time in its history had elected a professionally-trained Sheriff at the last election, after jailing his predecessor for slot-machine conspiracy. Wickett reported the board believed professional capacity could best be maintained by appointment of the Sheriff, as in the case of appointed chiefs of police in California cities.

"This charter," said Wickett, "provides a modern structure of government for this county and should give our generally excellent body of county officials the machinery to make our tax dollars more productive.

Major provisions of the charter are:

(1) A Board of five Supervisors, directly elected from districts, as at present, and concentrated on legislative responsibility.

(2) A County Executive, appointed by the Supervisors, whose tenure depends on the job he does in integrating and administering the county government for maximum service.

(3) Election of policy-forming offices—the District Attorney and the Assessor—in addition to judicial offices and the county school superintendent, whose functions are largely separate from county government.

(4) Administrative offices, ap-

Chamber Reviews Affairs Affecting Citizens at Friday Session in San Jose

Review of state and national trends and ballot measures affecting California's farming, business, manufacturing, tax, social security and natural resources will feature the fall session of the California State Chamber of Commerce's Central Coast Council here Friday, September 17. The meeting is of prime importance from an informational standpoint as well as in arranging fullest possible co-ordination of the Central Coast area's efforts, Frank M. Shay, San Jose, regional vice president of the State Chamber declared today, announcing the program.

Nine counties—Alameda, Contra Costa, Monterey, San Benito, San Francisco, San Luis Obispo, San Mateo, Santa Clara and Santa Cruz—all will be represented. Concurrent meetings will be held at the Sainte Claire Hotel Friday forenoon by the industry, natural resources, social security, tax, agriculture and highway committees. At a noon luncheon, recommendations of these committees will be reviewed by the Council. "Come November—Then What?" will be the theme of James Mussatti, State Chamber general manager, analyzing November ballot measures at the luncheon.

Status of the Central Coast water study will be reported by Lloyd E. Graybiel, San Francisco, at the industry committee session. Effect of the Supreme Court basing point decision will be outlined as to steel by C. M. Jorgenson, Oakland, and as to cement by Arthur W. Caldwell, San Jose.

(Continued on page 3)

PORTOLA RIDERS AT HALF-WAY MARK

The Portola trek has progressed 400 miles of the 780-mile Centennials ride from San Diego to San Francisco, and has been on the road for 54 of the 108 days.

Added Class Rooms Under Construction

All the steel is up and framing of six additional class rooms for Campbell Union High School is begun.

Contractors anticipate that construction will be complete sometime in November and the high school administration hopes to open the new rooms for classes Dec. 1.

Trustees of Campbell Union High School district are hopeful that present buildings, plus the new addition, will take care of the growing enrollment this year.

Herschbach To Build Duplex

Foundation for a two-family dwelling on Rincon avenue near Winchester was poured Saturday last, according to Robert D. Herschbach, builder.

Rustic trim and a shake roof will be used on the duplex. Lumber is already on the ground and actual construction is underway. Rezoning of the property for multiple dwellings gave rise to a recent rumor that a large apartment house was to be built there, but Mr. Herschbach's plans are for the two-family terrace at this time. Later, he may add a second duplex on the same property.

Golf Winner Here for Match

Ben Hogan, winner of the Reno Open Golf tournament, will play Ernie Pieper Jr., Bobby Harris and Eli Bariteau Jr. Saturday afternoon in a best ball match at San Jose Country Club.

AT SIGNAL SCHOOL

Pvt. William D. Adams, 84 Railroad avenue, Campbell, was recently selected to attend the Army Signal School at Ft. Monmouth, N. J.

Early Draft Registration Lags

With some 3200 men due for draft from this area, a rush is expected before the closing days of registration. Many Campbell men may register in San Jose, at the bureau nearest their place of business, registrars pointed out, but at least 1600, it is anticipated, will sign up for military service at the high school here.

Fifty six men registered opening day of the second peacetime draft.

Mrs. Ida M. Crook, Mrs. Helen Brown and Mrs. Maude Ostermeler were on duty as volunteers last Thursday.

Grammar Schools Schedule Announced

Campbell Union Grammar Schools will open on September 20, 1948, operating a regular session on the opening day with the cafeteria serving lunch to those desiring it. Registration of kindergarten children and all new pupils entering the school is urged before the opening of school.

At the Campbell Grammar School the office is open from 9 a.m. until 4 p.m., at Moorpark from 9 a.m. until 12 noon and at San Tomas from 1 p.m. until 4 p.m.

Due to overcrowded conditions the following grades will operate on double session: The second and third grades at Campbell, the second and third grades and part of the fourth at San Tomas, and grades one through sixth at Moorpark. The morning session will run from 8:30 to 12:30 and the afternoon session from 12:30 to 4:30. All pupils previously enrolled in the schools have been notified as to the session which they will attend.

"Ohhhh, what big chickens!" exclaims little Frankie Alvernaz, Campbell, as he looks over two entries in the Poultry Division at the Santa Clara County Fair."

Reunion Welcomes Sgt. Jetton Home

Mr. and Mrs. Campbell Jetton of 112 Dillon avenue welcomed the homecoming of their son, Sgt. Clarence L. Jetton from Okinawa Sunday, August 29 with a family reunion at their home. A picnic style dinner was served outside.

Those present were Mr. and Mrs. Campbell Jetton, Sgt. Jetton and wife, Gertrude and three daughters, Carolyn, Marilyn, Anita and small son; Mrs. Jetton's sister, Mrs. Rice and daughter Shirley, Mr. and Mrs. Virgil Gundy of San Jose. Mrs. Gundy is the former Miss Jay Jetton, daughter of Mr. and Mrs. Campbell Jetton. ....

Sgt. Jetton returned to Castle Field, Merced Monday morning, returning to his home Tuesday in Airport Village to spend a week's furlough with his family. Sgt. Jetton is with the 15th U. S. Air Force stationed at Castle Field.

New Twist In Biscuits

Orange twisters are made from strips of biscuit dough, with orange rind and sugar rolled into the dough. After baking, the twisters have a pebbly surface with a glisten of sugar.

Once a bride has learned to make good biscuits—and that skill is by no means as difficult as the cartoons would have us believe—she's ready for an advanced lesson that includes making orange twisters. These crisp curls of biscuit dough have an orange flavor accented by a crust of sugar, and the shape is enough to turn them into a culinary triumph for the cook.

To form twisters, first roll an orange rind-sugar mixture into the biscuit dough. Then cut the dough into strips, double each strip over and twist with one motion. For a variation, you might try braiding three shorter strips together, pressing the ends together firmly.

Orange twisters may be served wherever biscuits would be proper, and they may also accompany afternoon cups of coffee or tea.

ORANGE TWISTERS

2 cups sifted enriched flour
3 teaspoons baking powder
1 teaspoon salt
2 to 4 tablespoons shortening
⅔ to ¾ cup milk
Orange Sugar

Sift flour, baking powder and salt together. Cut or rub in shortening. Add milk to form a soft dough. Turn out on lightly floured board and knead one-half minute. Pat or roll out into eight-inch square about one-fourth inch thick. Roll Orange Sugar into the dough. Cut into strips about three-eighths inch wide. Double each strip over and twist. Place on baking sheet. Bake in hot oven (450 degrees F.) 10 to 12 minutes.
Yield: About 18 three-inch twists.

Orange Sugar

2 tablespoons sugar
1 teaspoon grated orange rind

Blend sugar and orange rind together.

Cherry Filled Coffee Cake

Mid-way through this quick coffee cake is a filling of juicy cherries to lend appetite appeal to a good breakfast.

For a hot bread that features so much good eating, this cherry filled coffee cake is exceptionally easy to make. Into the baking pan goes a crunchy layer of streusel, then a coffee cake batter, then sweetened cherries, finally more batter. This layered cake bakes in 25 minutes. Then it puts in an appearance at the breakfast table to give that meal style and sparkle.

Uses for such a coffee cake need not be limited to breakfast. Because it contains enriched flour, it is rich in B-vitamins, food energy and iron. With this splendid nutritional value, it is a mid-afternoon treat for callers, a supper dessert, a brunch special. Enriched flour products are good menu-balancers, since all their food values add up on the credit side of the meal. This coffee cake is high in the list of such products.

CHERRY FILLED COFFEE CAKE

Topping

¼ cup sugar
¼ cup enriched flour
1 teaspoon cinnamon
¼ cup butter or margarine

Mix sugar, flour, and cinnamon. Cut or rub in butter or margarine.

Batter

1½ cups sifted enriched flour
½ cup sugar
2 teaspoons baking powder
¾ teaspoon salt
1 egg
¾ cup milk
3 tablespoons melted shortening
1 #2 can cherries (1½ cups drained)

Sift together flour, sugar, baking powder, and salt. Beat egg. Add milk and melted shortening. Add to flour mixture, stirring until mixture is smooth. Spread half the batter into greased pan, eight by eight inches. Cover with cherries. Sprinkle half the topping over cherries. Cover with remaining batter, and finally with remaining topping. Bake in moderately hot oven (400 degrees F.) 25 minutes. Yield: 1 coffee cake, eight by eight inches.

Social and Club Notes.. around Campbell

John D. Blaines Celebrate Golden Wedding at Family Buffet Dinner

Festivities Monday honored the golden wedding anniversary of Judge John D. Blaine and Mrs. Blaine in their home on Second street in Campbell.

The Blaine's five children, their families and close relatives from surrounding counties gathered for a buffet dinner to fete the couple and to share their golden wedding cake.

The former Alda F. Swope and John D. Blaine were married Sept. 6, 1898, by Rev. William Angwin. Theirs was the first wedding to be solemnized in Campbell Methodist Church and the first church wedding to be held in Campbell.

The bride wore a white organdy wedding gown with court train and a long veil and carried white orange blossoms.

She is the granddaughter of the late Benjamin Campbell on whose farm site the town of Campbell has grown. Her own father came across the plains and mountains by ox train and John Blaine later traveled to California as a small boy with his parents, so the wedding represented the joining of two old families.

Present for the fiftieth anniversary of the occasion were their daughters Miss Laura Blaine, Mrs. Allen Stouffer (Margaret Blaine) Mrs. Sherman Roseheim (Pauline Blaine), Mrs. Albert H. Turner (Miriam Blaine) and their son Franklin.

With Mr. and Mrs. Stouffer were their children Georgia and Laurie; Mr. and Mrs. Jack Johnson and their children, Linda and Katherine accompanied the Roseheims who live in San Bruno, and Mr. and Mrs. Turner, of Pacific Grove, had their Nancy and Thomas with them.

Judge Blaine's Neice Elmarie Hulbert Dyke, her son and daughter-in-law, Nelson W. Hyler, and their daughters Deanna and Gail and Mrs. Blaine's sister, Mrs. Lena C. French, also drove up from Pacific Grove for the day.

Among the San Francisco relatives on hand was Wayne Davis.

Mr. and Mrs. Franklin Blaine and their sons Allen and Richard, Mrs. Genevieve Van Arsdell and her granddaughter Cynthia R. Smith completed the family group.

Mrs. Blaine wore a lavender dress and had a corsage of gold-colored violas.

The couple received many gifts and congratulatory messages.

* * *

Don Warnings Are At Home After Mid-Summer Rites

Mrs. Burton R. Brown of Oakland announces the marriage of her daughter, Marian, to Donald A. Warning, son of Mr. and Mrs. A. G. Warning of Campbell.

Reverend Charles E. Hannan united the couple at a garden wedding in Redwood City August 15.

Miss Alida Ann Furneaux and Andrew Livacich were the attendants.

The bride was reared in Cheyenne, Wyoming, and attended Cheyenne schools and the University of Wyoming. During the war she was a member of the WAVES and for the past two years she has been employed by the E. L. Bruce Company in San Francisco.

Mr. Warning is a graduate of Campbell High School. He served four years with the Navy in the Pacific. At the present time he is employed by the Cheim Lumber Company in San Jose.

The couple are now at home in Campbell.

Mackerel canning in California in 1947 reached 1,447,840 cases, second largest production in the history of the fishery.

Homemade Sandwich Buns

Just plain good food is the keynote of a quick menu of well-done hamburgers on enriched sandwich buns, served with plenty of garden fresh salad.

A serve-yourself meal which features hamburgers and relishes is certain to draw many comments of "what fun this is!" Sandwich buns from the bakeshop or made at home give the 'burgers that wonderful special flavor. When made at home, the buns are easily shaped from a plain yeast dough by rolling into small balls and flattening to the desired shape.

With the picnic season in full swing, it is a good idea to bake enough buns at one time to take care of sandwich needs for several days. Careful storage preserves their fresh quality. Incidentally, the buns taste wonderful when toasted over an open fire.

On other occasions you may wish to let the nearby friendly baker save you time and energy. The enriched sandwich buns he supplies also provide the important B-vitamins and iron of these home-made buns.

Sandwich Buns

2 packages yeast, compressed or dry
¼ cup lukewarm water
1 cup milk
¼ cup sugar
2 teaspoons salt
¼ cup shortening
2 eggs
4½ cups sifted enriched flour (about)

Soften yeast in lukewarm water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add eggs. Beat until blended. Add softened yeast. Mix well. Add remaining flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in lightly greased bowl. Grease surface. Cover. Let rise until doubled (about one and one-half hours). Punch down. Shape into number of buns desired by rolling into small balls and flattening to form sandwich buns. Place on greased baking sheets. Let rise until doubled (about one hour.) Form remaining dough into smooth ball. Grease surface lightly. Cover and put into refrigerator. When wanted, remove dough from refrigerator and punch down. Mold at once, or if preferred, let dough stand in warm room for an hour before molding. Let rise until doubled. Bake in moderate oven (375 degrees F.) about 18 minutes.
Yield: two dozen four and one-half inch buns.

HOLLAND HAS A NEW QUEEN

Juliana, Holland's beloved royal princess, today reigns as Queen of The Netherlands Kingdom. On September 4, Wilhelmina stepped down from the throne in favor of her daughter. "Inauguration" ceremonies were held September 6.

Wilhelmina, longest reigning monarch in Europe (the Dutch have just celebrated her 50th jubilee) announced her decision to retire in a broadcast May 12. Then she said: "I must, in the interest of you all and of the Kingdom, entrust the sovereignty to Juliana, who, apart from her wise insight, also has the advantage of her age and her fresh young powers . . . God bless you and my beloved child!"

Juliana, born April 30, 1909, was reared in the most democratic traditions. She attended and graduated from Leiden University as an ordinary student and she has continued to mingle with her people as one of them. Her husband, Prince Bernhard, now bears the title of Prince of The Netherlands. The couple has four children.

In keeping with the Dutch tradition of democracy, Juliana was not crowned, nor were the ceremonies which formally installed her as queen, called a coronation. Instead she was "inaugurated." No crown was placed on her head, but it lay as a symbol on a table by her side together with the orb and sceptre. She was "sworn in" much as the president of the United States, giving her oath of loyalty to the preservation of the Constitution.

Photos left to right show Queen Juliana as she is today and the young Princess Juliana with Wilhelmina.

Smorgasbord Potluck Precedes Ada Lodge Meeting Tuesday Evening

Smorgasbord potluck preceded a meeting of Ada Rebekah lodge Tuesday evening and attracted a big turnout of members and their families to Odd Fellows hall.

Mrs. A. C. Currie who arranged the supper, was assisted by Mrs. Herman Rice, Mrs. Jessie Silberbauer, Mrs. J. A. Brand, Mrs. Fred Jones, Mrs. John C. Hummel and Miss Leila Merritt. Committee members wore colorful skirts and peasant blouses as part of the "Night in Scandinavia" theme.

Dances of many nations were presented by the Gay Nighters group of dancers.

Mrs. Fern Fellman presided at the meeting, during which Mrs. Walter Silberbauer, district deputy president announced that Miss Dora Bernadasci of Ada Rebekah lodge has been appointed Good Fellowship Chairman of district 3.

Highlight of the evening was a report given by Lillian Ohlen on her recent trip to Alaska. She found Odd Fellow and Rebekah lodges very active and prices very, very high for all goods and services.

Mrs. J. M. Dahl told of the motor trip she and Mr. Dahl just took through the mid-West.

Elsie Kellogg, a visitor from Golden Rod Lodge of Porterville, aunt of Mrs. Fellman, Ada lodge Noble Grand, was introduced.

Mrs. Jessie Silberbauer is chairman for a birthday party of the lodge Sept. 21.

* * *

Mrs. E. R. Thompson, formerly of Campbell, is now living at Arlington, Va.

* * *

Rev. William H. Lloyd celebrated his birthday Sunday.

Other industrial committee topics follow:

The Public's Stake in Prohibiting Featherbedding Labor Practices—Robert Littler, San Francisco, for the construction industry; Claude Minard, San Francisco, as to movement of goods.

Overtime Pay Problem— Senator Arthur H. Breed, Jr., Oakland; Frank P. Foisie, president, Waterfront Employers Association, San Francisco; William H. Smith, San Francisco Employers Council.

Water needs and resources for the area will be discussed by T. R. Simpson, State Division of Water Resources, and G. L. Fox, executive vice president, San Francisco Chamber of Commerce, before the natural resources committee. Jack Riem, Northern California Fisheries Association, will talk on proposals affecting commercial fishing, while the light-draft vessel harbor projects will be the topic of Neal Cunningham, State Marine Parks Association, before the same committee.

John McFarland, San Francisco, will discuss workmen's compensation measures at the next legislature before the social security meeting, with Richard Ernst discussing employers' duties in connection with unemployment claims. At a joint social security-agriculture meeting, Ralph H. aylor, Agricultural Council of California, and Adrien J. Falk, vice president, State Chamber of Commerce, and member of the National Advisory Council on Social Security, will discuss extension of unemployment and old age benefits to farm workers.

California's increasing school problems, with trends in expenditures, taxes, etc., will be discussed before the tax committee by Loran C. Vanderlip, State Chamber tax analyst; Dr. T. W. McQuarrie, president, San Jose State College; B. O. Wilson, superintendent of schools, Contra Costa county; and Albert Davis, Palo Alto superintendent of schools. Influence of local governmental costs on industrial development will be outlined by Stuart P. Walsh, Industrial Survey Associates, San Francisco.

Besides its joint meeting with the social security committee, the Central Coast agricultural committee will review policies and actions in farm labor supply centers, foot and mouth disease, etc. Sugar beet industry expansion will be the theme of J. E. Coke, vice president, Spreckels Sugar Co., and Al. J. Brown, Fresno, will discuss expansion of the dried fruit market. Proposed legislation affecting the Farm Placement Service will be reported by S. V. Christierson, president of the Major Distributing Co., Salinas.

Dr. E. J. Leach, Salinas, highway committee chairman, has arranged the following program for his committee session:

Local governments look at new Highway Commission freeway policies, Wallace R. Boggs, Oakland, president, County Engineers' Association of California; California's interest in the new Federal Highway Act, John D. Shaw, engineer, U. S. Public Roads Administration; the construction industry and the new highway program, A. G. Raisch, San Francisco; streamlining highway presentations before the Highway Commission, George Savage, secretary, State Highway Commission; general discussion of state highway development progress.

Dust from the explosion of Krakatoa Volcano in 1883 was projected upward about 20 miles.

The grape introduced into California by the Mission padres is now known as the "Mission."

Army Seeks Engineers for Overseas Jobs

The United State Army Engineer Corps is looking for 50 men to fill important jobs in Central and South America and the Caribbean Archipelago, Wade Sargent, California State Employment Service manager in San Jose, reported recently.

Jobs are open for geologists, civil engineers, map and topographical draftsmen, marine and topographical surveyors and geodetic computers, Sargent said. Only men who are United States citizens, have a college degree or equivalent, at least one year of practical professional experience, and good health are acceptable. Pay for the jobs ranges from $3,727 to $6,235 per year, plus 25 per cent bonus for foreign service.

The work will involve almost constant traveling. Transportation between job sites will be furnished by the employer and a per diem allowance of six dollars a day will be allowed except while traveling from the point of hire to the job site and return to the United States. Transportation will be furnished from the point of hire to the job site, and return transportation will be furnished upon completion of a one-year contract.

Men with the necessary qualifications may obtain additional information about the openings from Sargent at the California Department of Employment, 852 The Alameda, San Jose.

The Navy department has retained professional color consultants to work out functional applications of color for equipment, hospitals, supply depots, ordnance plants and other activities.

Jet planes were first flown off and on a carrier in the Navy in August, 1946, when the FD-1, the Phantom, operated off and on the aircraft carrier U.S.S. Franklin D. Roosevelt.

Apricot Cottage Cheese Pie

Truly a pastry for a party is this apricot cottage cheese pie. Each serving is topped with whipped cream nests crowned with an apricot half.

Want an extra-smooth dessert to make a debut at a special dinner? An apricot cottage cheese pie may take a little more fuss than some, but the reward is pure pleasure. As the guest bites into a generous wedge of this luscious pie he will discover that beneath the whipped cream and apricot garnish lies a creamy layer of cottage cheese custard—and beneath that, a richly flavored apricot layer over flaky crust.

An important point to remember in making this pie is that the cheese custard must be baked at a rather low temperature to keep the milk and cheese proteins tender. Since the pie crust should be started in a very hot oven, only the apricot layer is placed in the shell for the initial baking. After ten minutes, take the pie from the oven and pour the cottage cheese custard over the apricot layer. Return the pie to the oven and finish baking in a slow (325 degrees F.) oven.

APRICOT COTTAGE CHEESE PIE

Apricot Layer

2 cups mashed cooked apricots
1 teaspoon lemon extract
¼ teaspoon almond extract
½ cup sugar

Mix ingredients well.

Cottage Cheese Custard

½ cup sugar
⅛ teaspoon salt
2 eggs, beaten
1 cup milk
1 teaspoon vanilla extract
1 cup cottage cheese

Add sugar and salt to eggs. Mix well. Add milk, vanilla extract and cheese. Blend ingredients thoroughly.

Pastry

1 cup sifted enriched flour
½ teaspoon salt
⅓ cup shortening
2 to 3 tablespoons cold water

Sift together flour and salt. Cut or rub in shortening until mixture is crumbly. Sprinkle water over flour mixture and mix to a dry crumbly dough. Turn out on lightly floured pastry cloth. Press dough together. Roll out about one-eighth inch thick. Line deep nine-inch pie pan. Trim and flute edge of pastry. Prick with fork.

Spread apricot layer evenly into pie shell. Bake in hot oven (425 degrees F.) 10 minutes. Pour cottage cheese custard over apricots in pie shell. Reduce heat to slow (325 degrees F.) and continue baking 50 minutes. Garnish with whipped cream and cooked apricot halves, if desired.

Yield: one nine-inch pie.

Homemaking Today

By Claire Raymond
P. G. and E. Home Economist, San Jose

Hot breads are certain to perk up morning appetites when breakfasts grow monotonous. If you've fallen into the cereal, toast and beverage habit, just watch how your family responds to the aroma of hot bread drifting from the kitchen.

In these back-to-school days breakfasts are especially important to the children. They need a good meal to give them the right send-off for the day. You won't have to coax them to eat when you have tempting hot breads on the menu.

Popovers, muffins, biscuits or coffee cake are easily and quickly mixed. If you prefer, you can measure the dry ingredients the day before, then in the morning, add the liquid and bake.

Baking powder biscuit dough is almost as versatile as yeast dough. It makes delicious coffee cakes, cinnamon rolls, tea rings, orange biscuits or shortcakes. One quick way with biscuits is to pat the dough into a rectangle and cut it into squares or diamonds, using a well-floured knife. Brush the tops with milk or melted butter or margarine and sprinkle with orange or cinnamon-nut sugar.

Drop biscuits save time and can be dressed up to make tasty treats. Add grated cheese, bacon bits or chopped dates to the dough and drop on a cookie sheet. To make **marmalade biscuit-muffins,** put 1 teaspoon of marmalade into each greased muffin tin, then drop the biscuit batter on top. For **caramel nut biscuit-muffins,** put 1 teaspoon of butter or margarine, 1 teaspoon brown sugar and a few chopped nuts into each greased muffin tin before dropping in the batter.

Try making **scones** this easy way: To 2 cups biscuit mix, add 1 egg and 2 tablespoons sugar and ½ cup top milk or evaporated milk. Spread the dough in an 8 or 9-inch round cake pan. Brush the top with beaten egg or milk and sprinkle with sugar. Bake for 15 to 20 minutes, or until done, in oven preheated to 450° F. Cut in wedges and serve hot with butter or margarine.

Waffles or griddle cakes are always welcome, and the batter for either can be made the night before and stored in the refrigerator.

Popovers can be mixed in a jiffy but take longer to bake. If you bake them in well-greased glass custard cups, you won't have to preheat the cups. Here is a good recipe:

POPOVERS

1 cup sifted all-purpose flour
¼ teaspoon salt
2 eggs
1 cup milk
1 teaspoon butter or margarine, melted

Sift flour and salt together. Beat eggs well, combine with milk and melted butter or margarine. Add liquid mixture to flour and beat to make a smooth batter. Fill well-greased custard cups about half full of batter. Bake for 30 minutes in oven preheated to 450° F., then reduce heat to 350° F. and bake for 10 to 15 minutes longer to dry out. Cut a slit in each popover to let the steam escape and serve promptly with butter, jam or jelly. Makes 8 to 10 popovers.

Household hints that simplify your career of homemaking are always big news. Here are some easy ways to do odd jobs around the house that are good to keep in mind for future reference.

When packing cake in waxed paper, sprinkle the paper with powdered sugar first. This helps the frosting to stick to the cake and not to the paper.

Roll out pie crust between two pieces of waxed paper. This keeps the rolling pin and work table clean. It is easy to transfer the rolled dough to the pie plate without breaks or cracks in the dough.

When putting new elastic in a garment, pin the end of the new to the worn elastic. As the worn elastic pulls out, the new elastic will pull in easily.

Keep a stiff brush near the laundry tubs. Before putting garments into the wash, turn pockets inside out and brush thoroughly. The brush also is handy for brushing soapsuds on especially soiled places such as neckbands, collars and cuffs.

A thimble or the finger of an old glove, placed over the end of a curtain rod, helps the curtain slip onto the rod easily without catching or tearing.

To paint a stairway which must be used while the paint is drying, paint every other step. After the first set of steps is dry, the alternate steps may be painted.

If you are not an experienced carpenter, you will find nails are easier to drive if first rubbed over a cake of soap.

To remove tarnish from brass and copper utensils, rub them with a mixture of equal parts of flour, salt and vinegar.

Cornstarch or cornmeal is excellent for taking up liquids spilled on rugs, upholstery or mattresses where washing or soaking is not possible. The starch or cornmeal should be poured over the stain immediately to absorb the liquid. It may then be taken up with the vacuum cleaner.

Stick a piece of adhesive or cellophane tape on the wall before putting in tacks to hold pictures. This helps prevent the tack from cracking the plaster.

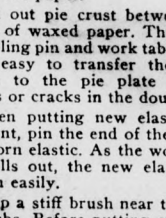
Wax applied to the dust pan helps dust slide off easily. When wax is applied to the tops and bottoms of drawers, it helps prevent sticking.

To wash delicate items such as slips and lace fronts in your washing machine, first place them in an old pillow case or laundry bag and tie shut. This saves wear and tear on straps, seams and trimmings.

Fresh pork sausage is usually considered a breakfast meat, but you can give your hungry family a pleasant surprise by serving it also for lunch or dinner. Casserole or meat-pie dishes made with sausage are tempting and satisfying.

When buying sausage be sure it is fresh. Store it in your refrigerator in the meat compartment or tray under the freezing unit until it is used. Cover lightly with waxed paper.

Do you get the most out of sausage when you cook it? It should be juicy, well done and a light golden brown. To cook it thoroughly without drying it out, place the patties or links in a skillet and add ¼ cup of water. Cover and simmer for about 15 minutes, then remove the cover and allow the water to evaporate and the sausage to brown. Pour off the excess fat. If you use link sausage, be careful not to prick the links because this permits the juice to escape.



Tuck these recipes away to try the next time you buy sausage:

SAUSAGE UP-SIDE-DOWN PIE

1 pound bulk pork sausage
¼ cup water
2 medium-sized onions, sliced
1 can tomato soup
2 cups biscuit mix
⅓ cup milk

Shape sausage into patties and place in skillet. Add water, cover and simmer 15 minutes. Remove cover and allow water to evaporate and the sausage to brown. Place sausage in casserole. Brown onion slices in sausage drippings. Arrange onions on meat, then cover with tomato soup. Add the milk to biscuit mix to make a soft dough. Roll out to fit casserole and place on top of meat mixture.

Bake for 15 to 20 minutes in oven preheated to 400° F. Turn out on platter so that meat and onions are on top. Cut in wedges and serve. Makes 6 servings.

FRESH PORK SAUSAGE AND CORN CASSEROLE

1 pound pork sausage
2 tablespoons flour
2 tablespoons sausage drippings
1 cup milk
¼ teaspoon salt
¼ cup chopped green pepper
1 cup cracker crumbs
2 cups whole kernel corn
1 tablespoon butter or margarine, melted

Shape sausage into patties and place in skillet. Add ¼ cup water, cover and simmer 15 minutes. Remove cover and allow water to evaporate and the sausage to brown. Remove sausage and stir flour into 2 tablespoons drippings. Add milk and salt and cook until the mixture thickens. Add green pepper. Arrange ½ cup cracker crumbs in a greased casserole. Add corn. Place sausage patties on corn and pour white sauce over all. Mix remaining cracker crumbs and melted butter or margarine and sprinkle on top of mixture. Bake 40 minutes in oven preheated to 350° F. Makes 4 to 6 servings.

Navy men bring home souveniers from all four corners of the world.

Poison oak may be killed by the use of 2,4-D as a spray if it is applied in the spring just after the leaves appear and before the plant blossoms, according to the University of California College of Agriculture.

"Spot the Dot," says Ruth and Mary Morettini of San Jose, as they point out the position of the elusive red seal in the Santa Clara County Fair's "Red Dot Contest." The first 100 people of the county to find the dot will receive free daily passes to the Santa Clara County Fair, Sept. 13-19. Here's a hint, the dots are on half cards and bumper strips.

Do you see dots before your eyes? Red Dots? If you do then you're a winner of two free passes to the Santa Clara County Fair, September 13-19.

Approximately 150 bumper strips for cars and posters for merchants windows, stamped with a red dot, were distributed last night throughout the county. Crew members from the fair contacted drive-in theaters, retail stores, and many individual automobiles all over Santa Clara County and placed the lucky cards. License numbers of automobiles on which a luck red dot will appear were recorded so that in claiming to have a red dot bumper strip, the person must first give his license number. If they check, he will receive two free passes to the Fair.

The first one to see a red dot card in a merchant's window and reports it will also receive two free passes. However, only the first call on any one card will be honored.

Communities which received red dot bumper strips and cards are San Jose, Palo Alto, Mt. View, Los Altos, Sunnyvale, Cupertino, Saratoga, Los Gatos, Morgan Hill and Gilroy.

When a red dot card or bumper strip has been discovered the person should contact his local news paper or the Chamber of Commerce. In San Jose one should call at the Fairgrounds at Ballard 1380 but not the newspapers.

Just ask for Red Dot. Upon giving your license number or the location of a merchant's store your free passes will be mailed to you.

Library Lists Book Arrivals

Books delivered to Campbell branch from the County Free Library the past week include:

Barnes, The Rise of Christianity; Boyd, Lucinda Brayford; Caldwell, Melissa; Campbell, On Wings of Cheer; Case, We Called It Culture; Chase, Grandfather Tales; Cohn, Where I Was Born and Raised; Cross, Complete Stories of the Great Operas; Derleth, The Milwaukee Road; Detzer, Appointment on the Hill; Dodge, How Lost Was My Weekend; Dumas, Twenty Years After; Forbes, Transfer Point; Gorer, The American People; Greig, The Wishing Star; Heard, Lost Cavern, and Other Tales; Hinkle, Tomahawk; James, Portrait of a Lady; Kroll, Rider on the Bronze Horse; Lamb, The March of Muscovy; Lambert, Dreams of Glory; Lasswell, Bread for the Living; Loomis, In A Chinese Garden; McWilliams, A Mask for Privilege; Maxwell, Time Will Darken It; Morris, Your Book of Garden Plans; Murphy, The Scarlet Lily; Newton, Gunmaster of Saddleback; Pratt, he Marines' War; Roberts, Eight for Eternity; Robertson, Field of the Stranger; Rosenthal, . . . German Self-Taught; Shellabarger, Captain from Castile; Sherriff, Another Year; Shott, The Solo Kid; Stone, The Secret Thread; Toynbee, Civilization on Trial; Westmacott, The Rose and the Yew Tree; Woman's Home Companion Garden Book.

Now's the Time to Prepare Soil For Home Gardens, says Expert

From the agriculturists of the University of California comes some timely advice to home gardeners regarding irrigation during the summer and fall months.

In preparing the soil for seeding the garden should be sprinkled long enough to moisten the soil to a depth of 12 inches, and worked as soon as the soil no longer clings to the tool. Sandy soil can usually be worked one to two days after watering; loam three to four, and clay five to seven.

Immediately after seeding, the soil should be sprinkled to a depth of about three inches, and kept moist by sprinkling it every day or two. After the plants are up, the watering can become less frequent, but more water should be used at each irrigation.

As to transplanting, the College of Agriculture suggests setting the plants in holes in moist soil, pressing the soil firmly around the roots, applying half a pint of water to each plant and covering the wetted ground with dry soil.

In order to gauge the depth of water penetration, small open cans should be placed at various distances from the sprinkler. One inch of water in the can corresponds to 12 inches of penetration in sandy soil, six to eight inches in loam, and four to five inches in clay.

A new super-octane gasoline which steps up aircraft engine power as much as 15 per cent is being used by Navy combat planes.

Coast's Model Champs

MODEL AUTOMOBILES built by Howard Eichen, left, of San Francisco, and Robert Cadaret, right, of Los Angeles, have been declared winners of top honors for California in the senior and junior divisions, respectively, of the 1948 Fisher Body Craftsman's Guild competition. Each receives $150. In addition, Cadaret's beautiful model took first regional award for the California-Nevada area, for which he receives a trip to Detroit to the national Guild convention to compete for one of eight university scholarships.

New Uses Found for California Olives

Novel uses of green and ripe olives have been developed in experiments carried out by the University of California Food Technology Division.

The first results of these experiments were shown at the 1948 Olive Technical Conference at the College of Agriculture by Dr. William V. Cruess and Dr. William Rivera.

Olive canners had the opportunity to taste a number of new canned products in which olives were used to flavor beans, rice, spaghetti, and noodles. Olives also made their debut as the main ingredient in sandwich spreads and meat-flavoring sauces.

Drs. Cruess and Rivera managed to achieve mushroom appearance and flavor by using ingenuity as well as olives. The mushroom effect was obtained in a sauce of sliced pitted olives, green peppers, salt, garlic, onions, and tomato sauce, cooked for several minutes before canning.

Dr. Cruess pointed out, however, that thorough experimentation and sales trials will have to precede any large-scale canning of any of the new olive specialties.

New Extension Catalogue Printed

California's "golden bear" will make an appearance in a new form September 1.

This time in the guise of a mailman, the University of California's newest addition to its bear family adorns the cover of University ....xtension's 1948 edition of the Catalogue of Supervised High School Correspondence Study.

Scheduled for distribution to high school principals throughout the state, the publication lists 86 courses designed to supplement the subjects available to high school students who wish specialized instruction by mail.

SCOUT NEWS

Troop 31 of the Campbell Congregational Church started the fall season with a skating party at the San Jose Roller Rink. Harry Smith, troop committeeman, was in charge of the transportation. The affair was such a success that another such activity is planned for the near future.

Troop 31 recently had the honor of placing number one on the list of camping troops in Santa Clara county. The official tabulation showed that the Campbell troop had gone on more camping trips with a greater percentage of boys than any other troop in the area. This record is hoped to be kept up and a trip is planned in the near future to the Santa Cruz mountains.

Newest recruit in roster of Troop 31 is Robert Smith, who was presented his Tenderfoot badge at last Tuesday's meeting, Sept. 7, by Scoutmaster Larry Cowper. In charge of the Investure Service were Senior Patrol Leaders Noel Whaley and Marlowe Windbigler. Bill Plymale, patrol leader, welcomed the new member into his patrol. Scoutmaster Cowper extends an invitation to all boys in the community who are 12 to 15 years of age to attend troop meetings which are held in the basement of the Congregational Church at 7 o'clock Tuesday evenings. Information may be had by calling Campbell 3673.

Future plans for the month were talked over at a recent meeting of the troop officers. Those present were SPL Noel Whaley. SPL Marlowe Windbigler, Henry Ramp, troop scribe; Jay Martin, troop historian; Roy Nelson, PL; PL Bill Plymale, and Darrel Martin, member-at-large. A schedule for the next six months was worked out which includes camping, outside speakers, parties and community good deeds. Rope work is the theme for September.

Vegetables that can be successfully raised in fall and winter gardens include beets, carrots, leaf or head lettuce, green onions, radishes, turnips, sprouting broccoli, ing to the University of Californ cabbage, and cauliflower, accordnia College of Agriculture Extension Service.

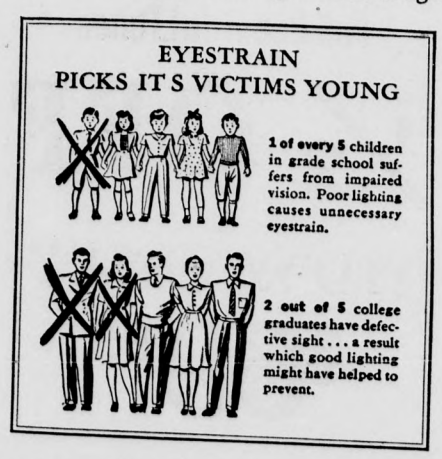
ASTHENOPIA
[EYESTRAIN]

Tonight in thousands of rooms considered "well lighted" young eyes are being harmed by light that is either too dim or is raw, harsh and glaring.

Improper lighting is a principal cause of eyestrain with accompanying headache and drowsy fatigue. In severe cases eyes should be examined and glasses prescribed. But in *all* cases light must be right—better light for better sight.



EYESTRAIN
PICKS IT S VICTIMS YOUNG
1 of every 5 children in grade school suffers from impaired vision. Poor lighting causes unnecessary eyestrain.
2 out of 5 college graduates have defective sight . . . a result which good lighting might have helped to prevent.

Protect young eyes these 4 ways: **1. Provide a good study lamp for the students in your home. 2. Make sure each lamp has a bulb of the right size. 3. Be sure the light is diffused—not glaring. 4. Clean lamp shade and reflector bowl for better, whiter light.**

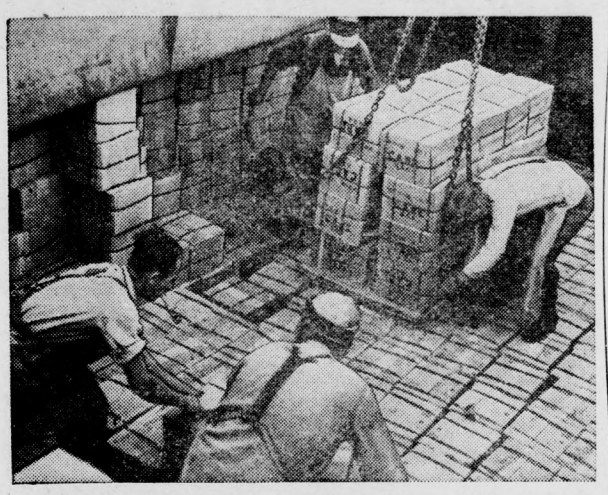
"CARE" Packages for Europe



This is a typical scene in a European port today, as large quantities of CARE packages arrive by barge to fill the warehouses of Europe. The parcels are stockpiled in numerous warehouses throughout the 14 countries served by CARE. From there they are transported to local distribution points.

CARE packages, for guaranteed delivery in Europe, may be ordered from the non-profit organization at 50 Broad Street, New York, N. Y.

Boy Scout Round-Up Planned for Campbell Scouters September 25-26

At the season's opening meeting of the Campbell District Scouter Roundtable plans were discussed for a round-up of Cubs, Scouts, Cubbers, Scouters and former Scouters to inaugurate the new Scouting season.

An overnight camp at Mount Madonna State Park Sept. 25 and 26 was suggested for a round-up of Scouters and former Scouters. This would give those attending an opportunity to renew their acquaintance with Scouting activities, and exchange opinions on camping and Scouting in general. The popular "Buddy" system of cooking would be followed.

All interested Scouters and former Scouters living in the Campbell district are requested to contact George Jeffers, district commissioner at his toggery, Campbell 2616, regarding transportation, eating and sleeping arrangements.

Future monthly meetings of the roundtable will discuss the realigned program designed for present day Scouting.

Members of the District Scouter Roundtable are the designated representatives of sponsoring organizations, Scoutmasters and their assistants. The purpose of the meetings is to discuss and formulate plans for an instructive and interesting Scout development program among the youth of the district.

Boy Scouts of America is a Red Feather organization of the Community Chest.

Organizations sponsoring Scout Troops or Cub Packs in the CampbellScouter District are: Almaden P.T.A., Campbell Congregational Church, Cambrian Men's Club, Campbell Methodist Church, San Thomas Improvement Club, Union District Improvement Club, Union Home and School Club, Citizens Group, Scout Dads.

Communion Service Of All Faiths Set By Church Council

An Ecumenical Communion Service under the sponsorship of the Northern California-Western Nevada Council of Churches will take place at the Oakland Arena, at 3:30, Sunday afternoon, Sept. 26. Ten thousand communicants of various sectarian churches are expected at the service.

The idea of such a service originated with the Disciples of Christ who come to San Francisco, September 26-30 with their International Convention.

Dr. Roy Snodgrass of Amarillo, Texas, president of the Convention of the Disciples, will present Bishop H. Tippett of the San Francisco area of the Methodist Church who will celebrate the service. Bishop Tippett will be assisted by Bishop James C. Baker of Los Angeles, who is just back from the formation of the World Council of Churches in Amsterdam, Holland.

Out of the Past--

The Oriole (High School Publication) for November made its appearance the first of the week. It was, as usual, an interesting number and well filled with ads, showing much effort on the part of Manager Ralph Hyde.

—(Press, Nov. 10, 1904)

J. H. Campbell has completed the survey of his five-acre orchard tract and it has been subdivided into lots. Rincon avenue will be extended through the tract and Second street will be extended south another block to join Rincon. As this lies between town and the schools it is bound to sell rapidly. Mr. Campbell had his plot recorded Monday. He is placing the lots on the market at a reasonable figure. See advertisement elsewhere. (Ed's. note: The ad reads, "ten dollars down and $1.00 a week." Lots from $150 to $300.)

—(Press, Dec. 24, 1904)

Methodist Boards To Outline Program At Sunday Meets

Plans for the fall church program will be made on Sunday afternoon as the Methodist Church board hold their September meetings. The Church Board of Education, with Lt. H. A. Taylor as chairman, will meet at 3 p.m. in the church parlors, while the Official Board, under the leadership of Rev. L. J. Osborne, will meet at 4 p.m.

Some of the items to be discussed at these two meetings will be the Sunday School Rally Day Sept. 26, a world-wide communion service and reception of members Oct. 3, the church choir program which begins Sept. 22, the special meeting on Sept. 22 with Rev. Spruit as speaker from the Amsterdam Assembly, and the plan for making additional rooms for Sunday School classes.

Mrs. R. Lewis Brown, general superintendent of the Methodist Sunday School, will conduct a final make-up session for summer absences next Sunday evening at 6:30 o'clock. A colored film of interesting Biblical stories will be shown to the group attending this session. The plan of the make-up sessions is to allow pupils of the Sunday School to win their Cross and Crown awards. The next time of awards will be Oct. 3. At that time some of the pupils will receive their four-year perfect attendance emblems.

Quartet To Sing At Church Service

Mendelssohn's "Still, Still with Thee" will be sung at the 11 a.m. service Sunday morning in First Methodist Church by a quartet of high school music students.

They are Wanda Kenny, Jane Smith, Joline Howard and Marie Bechlen, who have been trained in quartet by Mrs. Marye Parker.

Rev. Lawrence J. Osborne, pastor, will preach on "The Reward of Faith."

Porter Davis Dies In Nevada Home

Word was received this week of the death of Porter Davis, Aug. 29, in Reno, Nev., where the family lived for many years.

He will be remembered as the husband of the former Mary Woodbury of Campbell. Mrs. Davis returned the remains to St. John's Mich., for interment.

Shopping Center Permit Denied

Plans for a shopping center at Saratoga road and Payne avenue were turned down by Santa Clara County Planning Commission last week.

Application for the center, signed by Elsie T. Colombo, was part of a plan to develop a subdivision on the property.

The first book in 10 years to deal exclusively with the subject of wind waves, their origin, characteristics and effects, has been published by the U.S. navy's hydrographic office.

The record of an earth tremor made by a seismograph is called a seismogram.

Letters to Editor:

(We are very happy to receive the letter printed below. Last year at the close of the National Park season we received a personal visit from Mr. Townsend. He extolled the beauties of the region where he works so vividly that Peggy and I have promised ourselves to take a first hand look one of these days.)

United States
Department of the Interior
National Park Service
Aztec Ruins National Monument

Sept. 4, 1948.
Campbell Press,
Campbell, California.
Gentlemen:

My personal check for another year of interesting notes on my home town, my many personal friends and school mates, and a complete insight into the affairs of the town and countryside. I have enjoyed the pros and cons of your struggle for incorporation, for your soil conservation, the Lexington Dam, the new super highway, adequate police protection, new schools, improvement of fire protection system and the many other "affairs of State" as so aptly set forth in your paper.

In this part of the country, a little isolated, and in the tourist business we have been more than busy. As usual, we have enjoyed visitors from all over the world as well as travel from the states, and to date there have been some 14,500 people who have enjoyed the pre-history of this area. By the close of the travel year, Sept. 30, we expect to have some 15,000 visitors to see the ruins.

We extend an invitation to all Campbellites to drop in for a visit when traveling through this part of the country, and should they be planning an eastern trip via Highway 66 a side trip north to these interesting, ancient Pueblo dwellings will quite repay their effort and an extra day of time.

Sincerely yours,
IRVING D. TOWNSEND.

At the U. S. Navy weather central in Pearl Harbor, 300 weather reports are received from ships and stations every six hours, translated into a weather map, coded and broadcast.

The Fuerte avocado accounts for approximately 75 per cent of the total commercial crop.

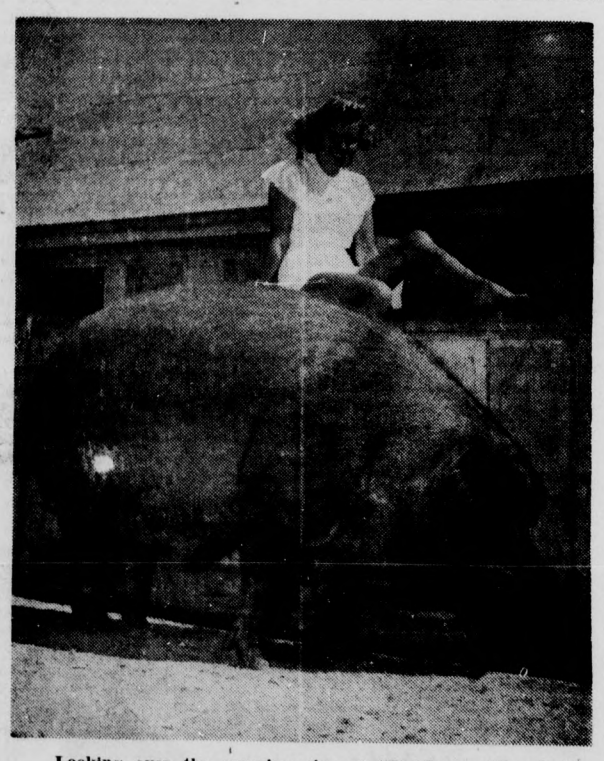
The California spiny lobster is a bottom forager, preferring flesh of all kinds.

For the fifth consecutive year, California in 1947 increased its commercial milk production.

Serve your country; build your future; get in the Navy now! !

Market Street's "New Look"

THIS VIEW of San Francisco's main downtown artery shows results of recent moves by city transit officials to speed up traffic. Buses have replaced streetcars on the two outer tracks, which will be torn up next Spring. Streetcars now run only on the two inner tracks, except East of Geary street. Other changes include skipstops, relocation of safety zones and gradual introduction of new streamlined trolley cars.



Looking over the amazing size of "Handsome Harry" the feature livestock exhibit at the Santa Clara County Fair, September 13-19, is Beverly Beard of San Jose.

He's the biggest hog in the U.S.A. No Prove he isn't and you'll win yourself a $25 Security Bond.

"Handsome Harry," the feature livestock exhibit at the Santa Clara County Fair, September 13 to 19, inclusive, is reputed to be the biggest four-year-old hog in the 48 States. He is 43 inches high and seven feet, three and a half inches long. "Handsome Harry" comes from a long line of Duroc-Jersey hogs and is perfectly normal in every respect, according to his caretaker, Everett Kennedy. Good clean living has made Harry grow and he now tips the scales at 1100 pounds.

The Fair Officials will give the bond to anyone who knows of a four-year-old hog and can prove he's larger than "Handsome Harry." Deadline to bring the proof in to the Santa Clara County Fair Grounds, Route 4, Box 414-A, San Jose, is Friday, September 10, or call Ballard 1380.

"Handsome Harry" is being loaned to the Fair by the Santa Clara Farm Bureau. At present the gigantic hog spends his days at leisure at the farm on Milpitas Road eating three to four pounds of ground barley and drinking anywhere from a quart to one half gallon of milk daily. Kennedy says they feed him once a day, but if he's "hungry" they feed him kitchen left-overs, in addition to his ration.

What's to became of "Handsome Harry" after the Fair? Well, how many pork chops can you get out of 1100 pounds?

USE THE CLASSIFIED

So th'sto HOUSEKEEPING

BY SHIRLEY STUART

I'm convinced that for a time Dad merely thought of my husband as "the nice young man" his daughter had married. But a can of paint finally made Dad see what a smart mate I've corralled.

One Sunday afternoon Dad began his favorite lament about the house again needing painting and the fact that he wouldn't pay so-called "high prices" for paint.

"That's where you're making your big mistake," jumped in my spouse.

Then the pride of the Stuarts really dressed Dad down. He pointed out that cheap house paint, by not standing up well, costs far more money in the long run. He maintained that really good paint is inexpensive insurance.

Well, Dad sputtered a bit, then stoutly declared that since the war sufficient good paint couldn't be had.

"Not according to the world's largest manufacturer of paint," says my best beau. "And you'd be surprised at the improvements they've made to give a longer-lasting, better-appearing paint job than ever before."

A few days later I discovered Dad had been checking up on a few things.

"Speaking of improvements in certain paints," he began, "chalking is a good example." For my benefit he explained that chalking provides a self-cleaning feature in good paint. The chalk with clinging dirt and dust is gradually washed away during rainfalls. It seems that in the new Sherwin-Williams paint, chalking is rigidly controlled to prevent wearing down too quickly. This control provides an extra year of fresh appearance for a paint job.

Dad got excited too, about a new control of oil penetration. He explained that a method had been found to prevent vital oil from soaking into the wood. Through a new process, developed by Sherwin-Williams, much of the oil is held in the paint film to make a better-looking, more durable film with fewer brush marks and more uniform thickness.

Until we have our own home to paint, I consider SWP has done enough for me: I overheard Dad telling one of his friends, "That new son of mine—good head on his shoulders!"

$5,000 for the Blind!

GOOD CAUSE — A check for $5,000 is presented on behalf of the alcoholic beverage industry of California to Rose Resnick, sightless founder of Recreation for the Blind, by Joseph M. Tonkin, left, chairman of the board of the Eyes for Heroes Foundation, and James L. "Roy" Rogers, secretary of the foundation and co-publisher of Beverage Industry News. The check is part of a fund contributed by members of the beverage industry throughout California to aid the blind. In this case the $5,000 will be used to provide recreation facilities for blind children of the state. A previous check for $20,000 was presented to the Guide Dogs for the Blind, Inc., training center. Phillip Marshall of Los Angeles president of the "Eyes for Heroes" Foundation.

Ringold Lady Dora, No. 753,056, with the litter with which she established a new production record for the Hampshire breed this spring. This sow is the first to have made a Six Star record in the Hampshire production registry. She is five years old and has raised 75 pigs in eight litters. In her six star litters she has raised 62 pigs, an average of 10.3. These pigs weighed a total of 418 pounds 56 days after farrowing. She is owned by William C. Goodheart, Jr. of Eaton, Ohio. She was fed corn, oats, alfalfa and pelletized milk by-products prior to farrowing. Her pigs were raised on a ration of seven parts corn and three parts oats with 8 per cent milk by-products added.

Mrs. Chamberlain Wins in Contest

Mrs. Bette Chamberlain of 661 Pamlar avenue, Campbell was listed today as one of the winners in a $15,000 contest for Californians sponsored by Golden State company.

Mrs. Chambeorlain didn't win the whole $15,000; but she did rate a ten dollar cash award for her entry. Winners in nearby communities include Mrs. C. Stanley Long of Los Gatos and Lewis Leandro of Los Altos.

Mrs. William P. Walsh of Ross, Marin county, won the $5,000 first prize. She's the wife of a San Francisco Call-Bulletin reporter.

Sheriff To Speak At C. of C. Session

Sheriff Howard Hornbuckle will speak at Campbell Chamber of Commerce meeting at 8 p.m. Wednesday, Sept. 15.

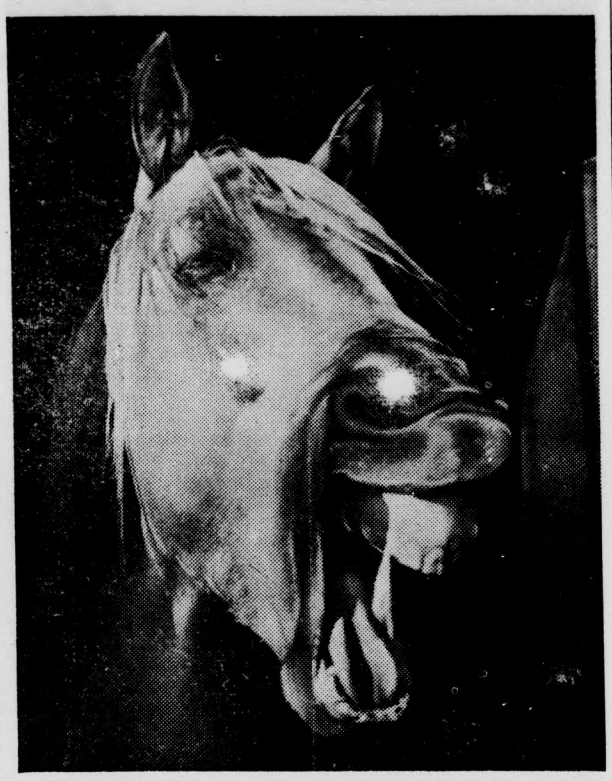
The meeting will be held in Country Woman's clubhouse where Laurance J. Hill, Chamber president, will preside.

VISITOR FROM MONTANA

Miss Beatrice Vogel is here from Billings, Mont., to visit Dilly Polk. Bea and her mother, Mrs. J. E. Vogel, spent a few days in Los Angeles visiting friends there and are going home by way of San Francisco after a brief stay here.

Mr. and Mrs. C. W. Thul spent Labor Day week end at Grass Valley.

Photo Classics



A group of photographic experts rated this shot of a "laughing" horse one of the most humorous pictures of the year during the recent Graflex Photo Contest. The photographer, Alfred Regan, 17-year-old high school student, has been taking pictures only two years.

San Jose: Electrolier time again on San Jose streets in preparation for the fourth annual Santa Clara County Fair Sept. 13-19. All main streets in San Jose will be dressed up in banners and electroliers such as these being set up by Pat Martin and Beth Ann Ballou.

So this is HOUSEKEEPING

BY SHIRLEY STUART

Early in our married life I learned that my young stalwart had a deep-rooted aversion to work in thought or deed after office hours. The fact remained that he'd have to do something about getting window and door screens before the summer deluge of flies. I decided to work up to the point gradually; to be very subtle.

"Isn't it amazing how nature works?" I asked.

"Um hummmm," from behind the evening newspaper.

"Now you take a hen. A hen is content to lay one egg a day. But a fly lays about 120 eggs at a time."

"Um hummmm."

I chose to be encouraged. I pointed out that it would be smart to keep any and all parent flies out of our house. That the only way to accomplish the purpose was to have effective screens. Warming up, I added that I had my mind set on commercial bronze screens because they're strong, won't rust, and withstand corrosion.

Down came the evening paper. "Funny thing you should mention that." says he. "I was thinking about it just today. You know, they used 200 tons of that stuff for the water supply system of the R.C.A. Building at Rockefeller Center, New York City."

I was slightly confused.

"You're right," he went on. "It doesn't rust or corrode. And I've about decided to have it installed all over the house. That rust-proof feature will certainly help the looks of our bathtub and kitchen sink."

"What," I asked weakly, "are you talking about?"

"Just what you were: red brass pipe for our hot and cold water lines."

Up went the evening paper.

At the moment I took it rather calmly. No use getting excited just because he wasn't paying any attention to me. But when the time comes, one Mr. Stuart is likely to be tapped gently on the head with a bronze screen or a red brass pipe . . depending on which comes in the house first!

One thorn of experience is worth a wilderness of warning.—James Russell Lowell.

San Francisco's De Young Museum, in Golden Gate ark, was opened March 25, 1895.

By 1930 California walnuts had virtually displaced the imported product in United States markets.

The first commercial orchard of oranges was planted in 1841 by William Wolfskill in Southern California.

In the Navy, coffee is often called "Joe," "Mud," "Jamoke," and real black coffee is known as "Tar."

OUR DEMOCRACY—by Mat

Our National Motto
E PLURIBUS UNUM
—ONE OUT OF MANY—

WITHIN A FEW HOURS AFTER THE DECLARATION OF INDEPENDENCE WAS SIGNED, OUR FOUNDING FATHERS ORDERED A SEAL FOR THE UNITED STATES DESIGNED. IT BORE THE MOTTO *E PLURIBUS UNUM*. SINCE THEN, THESE WORDS HAVE APPEARED ON ALL AMERICAN TREATIES, PRESIDENTIAL PROCLAMATIONS AND OTHER IMPORTANT FEDERAL DOCUMENTS... WE LITERALLY CARRY THE MOTTO WITH US—ON THE COINS IN OUR POCKETS.

"ONE OUT OF MANY"... IT IS THAT SPIRIT OF UNITY AMONG OUR PEOPLE WHICH HAS GIVEN US THE SOLIDARITY THAT KEEPS US STRONG—"ONE NATION INDIVISIBLE, WITH LIBERTY AND JUSTICE FOR ALL."

Freeholders File

(Continued from Page 1)

pointed by and responsible to the County Executive, chiefly as follows: Sheriff, Clerk, Recorder, Engineer, Auditor-Controller, Tax and License Collector, Treasurer, Purchasing Officer, Coroner-Public Administrator, Director of Health, Director of Welfare and Personnel Director.

(5) The Supervisors would have power to effect consolidations and to redistribute functions among the above offices..

(6) The Auditor, with additional duties of Controller, would have power, not available now, to institute standard bookkeeping and record-keeping systems in all county offices and be required to make periodic audits of the 25,000,000 that is handled by these departments annually. Any agency which receives funds from the county would be required to open all its books to county inspection.

(7) As chief budget officer, the County Executive, is required to prepare the county budget in a more orderly fashion than at present for presentation to the Supervisors and to execute it through each fiscal year.

(8) The Supervisors—in addition to their immediate aides such as the board's clerk and the County Counsel — would appoint boards and commissions for planning, health, welfare, personnel, education and the law library trustees, all with four-year terms. The board is also permitted to set up a county recreation organization if this appears desirable.

(9) Civil service, with a merit system of appointment and promotion, and a proviso that no employe can be forced to work outside his job classification, applies to all paid appointive county employees, including department heads, with the exception of the Executive, his confidential secretary, the confidential secretaries in the offices of the District Attorney and Sheriff, and temporary employees.

(10) Civil service would be administered by a Personnel Director and a five-man Personnel Board, the latter to be appointed by the Supervisors as follows: Two from a list of nominees of the county employes, two by the Supervisors themselves, and a fifth from a list of three presented by the other four board members. The Director would administer open competitive tests and standardize and classify all positions, with pay scales commensuate with what prevails in private employment in the county. The Personnel Board would hear appeals of employees from written notice of discharge or demotion.

(11) The Director of Health and the Director of Welfare, working in cooperation with their respective advisory commissions, would administer and coordinate their operations. The health director, for example, would appoint administrative heads of the county hospital and related institutions and public health services. The charter provides that the seven members each on the health and on the welfare commissions shall serve rotating terms with no member succeeding himself. The last proviso is designed to infuse new viewpoints and enthusiasm continually into these fields of service from the community.

Chairman Wickett pointed out that one of the chief values of the charter was that it stuck to the basic job of providing modern structure of government, not possible under the present state county government act, but left most of the details to be developed by the caliber of men administering it and the needs of a rapidly growing valley.

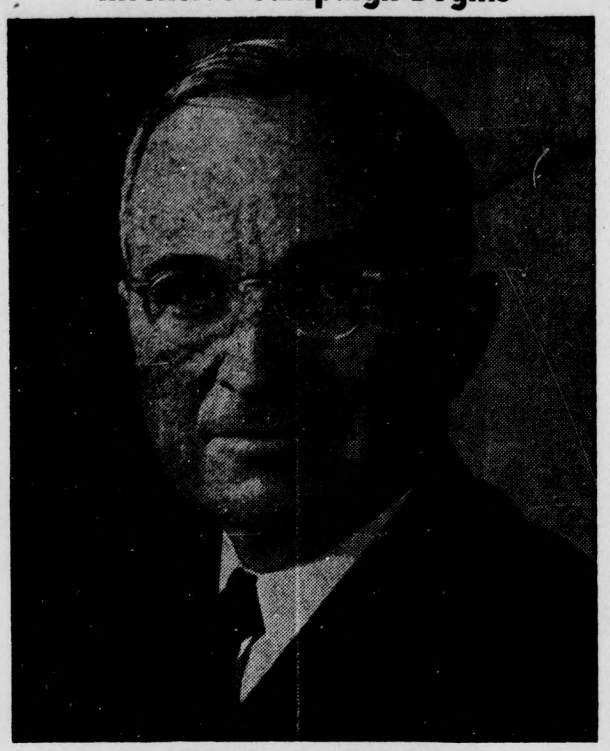
"As it is now, we elect a lot of fine department heads who are independent of each other. Integrated as a team, they can do an even better job, we believe.

"In preparing the charter we have left as much as possible to existing state general law. Details of operation are left to an Administrative Code which the Supervisors are required to prepare within a year after the charter goes into effect. Consolidation of offices and redistribution of their functions to meet changing needs by the supervisors is authorized.

"The charter can be amended by petition or action of the Supervisors approved by a simple majority vote of the people."

The 15 Freeholders, who completed the job for which they were elected June 1, represent all areas and a wide diversity of occupations in this valley. They are Cecil L. Carlyle, Gilroy dairyman; Mrs. Margaret B. Connor, Palo Alto housewife and club leader; Raymond J. Fisher, Los Gatos educator; Paul T. Gallagher, San Jose attorney; Charles S. Gubser, Gilroy farmer; Dr. Bertha S. Mason, San Jose physician; Harry G. Mitchell, East Foothills orchardist; Peter J. Pasetta, Santa Clara contractor; A. J. Price, Lot Altos realtor; Aaron Richards, San Jose business executive; Carl L. Ryser, Almaden Road fruit dryer and warehouser; E. B. Scott, San Jose labor union official; Allan M. Standish, Milpitas rancher; William L. Whidden, retired Morgan Hill utility official, and Fred A. Wickett, retired Palo Alto insurance executive.

Intensive Campaign Begins



PRESIDENT TRUMAN

President Truman has started his gruelling campaign tour with a Labor Day visit to Detroit. He spoke to sweltering thousands in famed Cadillac Square. After a swing through Ohio the President returned to Washington where he will remain until September 17 when he again starts out on a western swing that will take him to the Pacific Coast.

OUR TOWN

(Continued from page 1)

town to a studio in San Jose. Then you'll be sure to get your money's worth—or if you don't you can sit in the reception room and complain until you get your money back. Boise, Idaho, is a mighty long ways off.

★

It was all a case of crossed signals, plus some cross people at Mrs. R. B. Edward's home the other evening. Mr. Edwards is ill, so Mrs. Edwards turns on the front porch light when she needs her son, who works the night shift within sight of home.

Well, one evening she surprised a spooning couple parked in front of the house. They drove away when the light flashed on, returned a little later and threw eggs and tomatoes on the porch—an outburst of temper that has had Mrs. Edwards puzzled, hurt and mad as hops. It's our meanest-man story of the week.

★

Our nicest-man story is about the beautiful new gold wedding ring that Judge Blaine gave Mrs. Blaine for their fiftieth anniversary Monday. Then there are Walter Stray's plans for the Stray's golden wedding in 1950, which sound mighty grand.

Pigeon Fanciers To Compete for Prizes

Pigeon fanciers will have a chance to exhibit their prize birds in a new class now open at the Santa Clara County Fair, September 13-19. Ribbons and cash premiums will be offered to all varieties of prize winning pigeons in this division, according to Jack Villar, superintendent of poultry and rabbits.

Two pigeon clubs in San Jose, both called the Homers Club, will offer special cash prizes to their members. However, the division is open to all pigeon owners, both individual and clubs.

"A new experiment in housing of poultry and rabbits is being tried out this year," explained Villar. "Fireproof canvas tents will be erected and 10 large fans will be installed to provide cross ventilation. This way we will insure comfort of the animals being exhibited."

Entries are coming in unusually fast for this time, Villar remarked. Deadline for entries in the poultry, rabbit and pigeon departments is Sunday, September 5. If entries come in before the deadline and the limited accommodations are filled, the entry fee and application will be returned to the exhibitor. All stock must be in the exhibit tent on September 13.

A total of $2,552.50 in cash premiums, or 1232 in number, will be given to prize winners in the poultry department. Rabbit owners can expect 646 premiums for 917 in prize money. Due to the newness of the pigeon division, no definite total of premiums has been released as yet.

Anyone who wishes to enter in the poultry and rabbit show, or in the special pigeon division, should contact Villar at Col. 5007-J or write to the Fair Grounds, Rt. 4, Box 414-A, San Jose.

The Islands of Zanzibar and Pemba, off the coast of Africa, yield the bulk of the world's supply of cloves.

The charter of the City and County of San Francisco provides that the city government operate on a cash basis.
